2. Assure proper access at ground levels for the sanitary units to secure a proper service. Any delay exceeding 10 minutes for carrying out services done by Sanivac will be billed. In cases where Sanivac would encounter difficulties carrying out the services set herein as a result of customer negligence, Sanivac shall in no way be liable for damages incurred. In cases where the services cannot wait for the next planned visit, resumption service fees will be charged.
3. Plug units correctly and according to instruction and supply electricity at all times during cold periods to prevent any freezing and/or breakage.
4. Acquire any permit, licence or authorizations required, and notably the site layout, and pay the costs related thereto.
5. Maintain units in a proper sanitary state by adjusting the number of units or services necessary according to the site needs.
6. Maintain exclusive and absolute control over the sanitary units and return them to Sanivac at the end of the usage period.
7. Abstain from making any modification to the sanitary units without prior written approval from Sanivac.

Generally speaking, the customer understands and accepts that Sanivac will not be liable for any material damage caused to the rental equipment or services provided under this contract, or even related to the material or equipment used by Sanivac's employees as part of services provided under the terms of this contract, unless the damage was caused by Sanivac or its employees' gross negligence or willful misconduct.
11. Return all equipment in the same condition as delivered, normal wear and tear excluded.
12. Pay all costs for any repair, restoration, or replacement arising out of any event, such as loss, fire, theft, vandalism, disappearance, wind, or storm; as if they were the insurer while the sanitary units are in their custody and possession throughout the rental period.
